
Project Name: CSC Saskatoon Regional Psychiatric Center (New System)

Location: Saskatoon, SK

Owner: Correctional Service Canada

Prime Consultant: Emergency Communications Engineering

Facility: 200-bed regional psychiatric center located in Saskatoon, SK.

DelcoSecurity Scope: Engineered, manufactured, and commissioned a two-node door control system for the new bow 100 bed unit. Phase 2: Added 5 door control nodes for remaining units, and 1 for central control redundancy. Also included real-time video integration of CCTV surveillance system onto touchscreen platform and intercom/camera integration.
