
Project Name: Calgary Provincial Remand Center (Retrofit System)

Location: Calgary, AB

Owner: Alberta Public Works

Prime Consultant: Beaubien, Glover, Maskell Engineering

Facility: 400 cell Provincial Remand center located in Calgary, Alberta. The Calgary West Remand Center is one of the most state-of-the-art buildings of its kind in Canada. The communication and security systems at this facility are commensurate with the complexity of a project developed to accommodate a variety of inmates. The facility ranges from minimum to maximum security for both male and female inmates.

DelcoSecurity Scope: Engineered, manufactured, and commissioned replacement of the eight node touchscreens in the door control system.

Technology: The system included eight touchscreen nodes. Software and hardware included: AB Panelview 1100s, AB 5-20 PLCs.
